Our Full-Service Awareness Platform allows you to save valuable time and money thanks to our efficient solutions. Get access to our broad range of tailor-made products that are all about information security and data protection. And on top of that, you will also benefit from our super-fast and smooth deployment, providing you with all the tools that you need.

Working with us means that you will always be up to date and relevant! We continually adapt our portfolio to changes in the market situation. Trust our expertise to effectively reach your goals.

Choose us as your cybersecurity awareness partner and experience the advantages of our innovative and flexible solutions for yourself – increase your clients' security and efficiency today!

# FULL-SERVICE AWARENESS

## 1. ASSESSMENT

Simulate different scenarios, e.g., phishing or smishing attacks. This will give you an overview of the current situation.

## 2. ATTACK SIMULATION

Our Phishing Attack Simulator offers customised or industry-specific attack scenarios to the users.

## 3. REPORTING

Use the reporting module to evaluate the data and gain an understanding of the current situation.

## 4. AWARENESS TRAINING

Afterwards, we will provide selected online courses to ensure a sustainable security awareness level in the company.

# ADVANTAGES OF PARTNERING WITH IYS

## ● **KNOW-HOW**

Industry-specific expert knowledge and custom product packages.

## ● **PORTFOLIO**

Content and services that meet different needs and requirements.

## ● **PREPARATION**

Personal onboarding process to introduce you to our products.

## ● **SUPPORT**

Our dedicated contact persons provide fast support.

## ● **STABILITY**

Long-term cooperation in the areas of planning, implementation, and support.

## ● **GDPR-compliant**

Our servers are hosted via ISO 27001 and BSI C5 certified data centres in Germany.

As our partner, you will expand your portfolio, get new clients and also benefit as a company – all without complicated rollout efforts.
